CHAPTER 2 WEATHER

94, Forecasts by telephone, substitute:

Dial **08-92-68-32-50** (or **3250** in mainland France only), plus the number in brackets below, for recorded ☎ forecasts:

(331) Inshore (*rivage*) bulletins give 7 day forecasts (2M seaward), tide times, signals, sea temperature, surf etc - with an indication of reliability.

(332) Coastal (*côte*) bulletins cover the Channel & Atlantic coasts in 5 areas, to 20M offshore. They contain strong wind/gale warnings, general synopsis, 7 day forecast and outlook.

(333) Offshore (*large*, 200M seaward) bulletins contain strong wind/gale warnings, general synopsis, 7 days forecast.

☎ **08-92-68-08-77** for same offshore areas as above; saying 'STOP' as it is named, selects 1 of 3 offshore areas:

- Western UK, Ireland, English Channel & Bay of Biscay;
- Eastern UK and the North Sea; or
- the N part of the western Mediterranean

CHAPTER 3 COMMUNICATIONS

106, VTS CHART 1 THAMES AND MEDWAY, (top chart) near top right-hand corner, VHF Ch 12, amend: Ch 69.

Note: On page 105, ENGLAND – EAST COAST, under PORT OF LONDON, the corresponding entry and other VHF channels remain correct.
